Clearwater, FL 33762

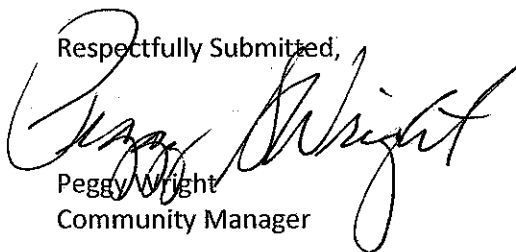

RE: Reference for Work Performed

As the Community Manager of Florida Christian Apartments, I would like to take this opportunity to thank you for a job well done. Your staff was delightful to work with and it was obvious of their desire to do the job well and work in a professional manner with our staff and residents.

In this climate of highly competitive job bidding and contractor selection, choosing the right contractor is paramount. For Florida Christian Apartments, using BlueWorks was a good decision for many reasons. Your staff and you as the owner were respectful of our senior residents, never lost patience with their higher needs, and were highly accommodating. Not every contractor could have filled that role. In addition, the lengths that you went to resolve any issues (which are going to happen in a 180 unit building of our age!) was nothing short of outstanding.

We appreciate the care you took with our residents and our building. Thank you for your dedication to work well done.

Respectfully Submitted,

Peggy Wright  
Community Manager
